ABOUT ME

I am confident that I will be able to apply the skills I have gathered and learn any new technology and applications very quickly.

EXPERTIES

- Time Management
- Adaptability
- Fast Learner
- Teamwork

PERSONAL PROJECT

- **car rental**

  https://car-rental-car.netlify.app

  The car rental website is a highly efficient and user-friendly application designed to streamline the process of renting cars. Developed using the **MEAN** stack, which combines MongoDB, Express.js, AngularJS, and Node.js, this application ensures smooth navigation and optimal performance. Additionally, this website offers an admin section that allows administrators to manage various aspects of the car rental process such as inventory management, user accounts, bookings, pricing, and much more.

- **A restaurant admin dashboard site**

  https://friendly-cajeta-e0526c.netlify.app/dashboard

  The website Taste the Fresh boasts an impressive and user-friendly admin dashboard, built using Angular. As a powerful front-end framework, **Angular** has allowed the developers to create a highly responsive and dynamic interface that offers seamless navigation and optimal performance.

- **a book search website**

  https://bookshunt.netlify.app/index.html

  Bookshunt is a user-friendly website that enables individuals to effortlessly search for books by their title. Developed using the powerful programming language of **JavaScript**, this platform offers a streamlined solution for book enthusiasts looking to quickly find and access relevant literature.
